Hotel For Sale.
THE HOTEL known as the LEWIS HOUSE located in the City of Fond du Lac, State of Wisconsin, is now offered for sale, together with Furniture and Fixtures complete, and immediate possession given. This property offers a rare inducement to any person wishing to go into the business. This house is doing an extensive business, and is as well known to the traveling public as any other house in the State; it has accommodations for 100 guests. The building is 70 feet front on Main street, 190 feet on Sheboygan street, 85½ stories high, with good Stables and 2 Artesian Wells on the premises. This property is one of the best located of any in the city; it has front upon three different streets.
The city contains a population of 7000 inhabitants, and is growing as fast as any other in the State.

Notice Extraordinary!
WE WOULD NOTIFY the merchants and the public generally in the Western States that the Match Manufactory of R. W. PIERCE & CO., Milwaukee, Wis., is in full and successful operation, notwithstanding the declaration of a match concern in Detroit, Mich., that our establishment had burned down—that R. W. PIERCE & Co. had failed—that no more R. W. PIERCE'S matches would be seen in market, &c. &c. We are well aware that all such assertions will in due time recoil with bad effect upon the party who originated them, and what we wish is, that the public should be set right in the matter. We have now facilities for manufacturing matches as cheap, or cheaper than any other establishment in the West, and as to the quality, we will leave those who have used them for the last twelve months to be the judges, and only remark that our business has increased from less than $1000, in 1844, to more than $50,000, in 1856.
All orders for matches promptly filled.
Beware of Counterfeits!
☞ None genuine unless labelled R. W. PIERCE.

PITTSBURG, FT. WAYNE & CHICAGO
RAILROAD!
THE New and Direct Route now open to New York, Boston, Pittsburgh, Philadelphia, Baltimore and Washington City, Cleveland, Dunkirk, Buffalo, Niagara Falls, and all Eastern Cities, Cincinnati, Columbus, Dayton, Springfield, Urbana, Zanesville, Steubenville, Wheeling, and thence by the Ohio, Cumberland and Wheeling, and all Interior towns of Ohio, Pennsylvania, Virginia, Maryland, New Jersey, &c., making one grand unbroken Rail Road line between
CHICAGO AND THE EAST.
FARE AS LOW AS ANY OTHER ROUTE.
☞ Passengers wishing to go by the desirable and pleasant Route, should be particular and ask for Tickets by Fort Wayne, avoiding the annoyance of re-checking baggage at Fort Wayne.
Trains leave Depot on VAN BUREN ST., daily as follows:
12.00 A. M. 8.45 P. M.
Without one change of cars to Pittsburgh.
CHECKING BAGGAGE THROUGH
To Pittsburgh, Philadelphia, Baltimore and New York. Connecting directly with trains on the great Pennsylvania Central Railroad, to all Eastern cities. Also, with Cleveland and Columbus Railroad to Cleveland, Dunkirk, Buffalo, Niagara Falls, with New York Central and New York and Erie Railroads to New York and Boston.
Persons going East will find the route by far the most desirable one, from the advantages in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the allowance of re-checking baggage required by other routes.
Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other route, and quick despatch.
Tickets for sale at all the principal ticket offices at the West, and at the Company's Office, No. 50 Dearborn St., opposite the Tremont House, Chicago, and at the office of the Indiana Line Steamboat, Ashtabula, by A. G. Leland.
JOHN J. HOUSTON, General Freight and Passenger Agent, Pittsburgh.

ANNOUNCEMENT.
IN consequence of ill-health, I have felt it my duty under the advice of my physician, to give up business entirely. I have sold out my stock of Books, Stationery, &c., to Henry Kempshall, who has been with me during the past year, and for the four previous years with Messrs. D. Appleton & Co., of New York.
It is with no ordinary regret that I relinquish a pleasant and successful business, and sever the connections which have existed between myself and my customers.
In Mr. Kempshall, I am assured that my old friends and patrons will find a thoroughly business man, who will treat them courteously, deal honorably, keep a good stock, and sell at reasonable prices.
To Mr. Kempshall, all accounts for or against me will be settled by him. ARCHIBALD WILSON.
Milwaukee, March 30, 1857.

Having purchased the stock of Mr. Archibald Wilson, and his interest in the bookselling business in this city, I propose to continue the same at the old stand, and shall endeavor, by keeping at all times a large and well selected assortment, and by careful attention to business, to merit patronage from both old and new customers.

More Federal Proscription.

The cool impudence with which the party in power assumes to punish the people, for entertaining and expressing opinions opposed to it, is astonishing. It is a growing evil, which ought to be rebuked, in a signal manner. For some years past, whenever the people have tired of the stupidity of any third rate Hunker politician, or have compelled him to remain at home in disgrace, the Federal Government has been appealed to for aid, and not in vain, and the various diplomatic posts abroad, and civil offices at home, are filled with incompetent officers, whose only claim is that the people, who know them best, have condemned them; and thus the Government service has become a sort of pension establishment, or House of Refuge, for needy, broken down, or delinquent politicians, instead of being an object of honorable ambition for honest, high-minded men.

Latterly the Hunker Administration has enlarged its field of operations. The Post Office, it has always been supposed, was established for the convenience of the people; and though it may be reasonable enough that the local offices should be held by persons whose politics agree with those of the head of the Department, so long as those offices are subject to his appointing power, it is certainly *not* reasonable that where the people are *unanimously* opposed to the party in power, the office should be removed from them and taken to some other place, where a sham democrat can be found for Postmaster.

We have noticed lately, quite a number of instances of this sort of proscription in this State, and now the Elkhorn, Walworth Co., *Independent*, brings us news of another case. The people of the town of Lagrange are almost unanimously Republican. The Post Office was quite conveniently located to serve them, but it has now been taken away from the late incumbent, and located in the edge of the town, within a mile of another office, simply because no Buchanan man could be found nearer, who would take it.

Probably these instances of petty spite, will convert Walworth Co., to Border Ruffian Democracy!

Scarcity of Provisions.

From every direction we learn of great scarcity of food for man and beast, resulting from the long continued cold weather. A day or two since we copied a paragraph from a Buffalo paper relative to the dying of cattle by starvation in Cattaraugus county. Complaints reach us from northern Indiana of the same nature. From northern Michigan, we have the following, from the Saginaw *Enterprise*:

In some portions of Genesee and Tuscola, and probably Saginaw county also, there is much suffering for want of provisions. All kinds of provisions, except flour, are unusually high, and very scarce throughout the northern regions.—In the newly settled townships, where most of the lands are but little improved, and the past season unfavorable, the supply of provisions is short, and but few of the inhabitants able to buy them at present high prices. Instances of great suffering and almost starvation, in particular neighborhoods, are reported. In some cases property has been sacrificed at ruinous prices, and men have mortgaged their farms to obtain means for the support of their families, while those who have no such resources to draw upon, must receive aid or suffer actual starvation.

In portions of western Iowa, the people are almost starved out, and caravans of wagons are being sent eastward for a supply. The trouble is aggravated by the early setting in of spring immigration, families being unable to purchase food to keep them alive, except at enormous prices. The Chicago *Democrat* says:

There is, in this state and elsewhere, a great scarcity of fodder for cattle, and we hear of many dying from starvation. Hay has reached an extravagant price, and in many instances, the country has to depend upon the city for a supply.

Like complaints reach us from some portions of our own State. Thus, the Washington county *Democrat* says:

Owing to the extreme backward spring and a lack of fodder, cattle are actually starving to death in many portions of the country. In this vicinity hay is worth eighteen dollars per ton, and scarcely to be had at that. Many cattle have died in this county of *starvation*, as the number of green hides now coming in, testify. A whole month must yet intervene before cattle can pick their living, and before the expiration of that time it is feared that the crows will have picked about all the cattle.

Provisions in the lumber regions are very scarce and very high, and the demand upon our dealers is greater than they can supply. Large orders for pork are being received constantly to go northward, and several lots have even been sent west to the Mississippi river.

The enormous emigration into the Northwest last year and this spring, of course, accounts partially for the active demand for provisions, and Wisconsin alone has probably 150,000 more mouths to fill than it had one year ago. We trust that farmers will speculate less, and sow and plant more, for the indications are strong that they will find ready markets, at full prices, for all that they can raise.

Look out for Photograph Counterfeits!

We were shown yesterday, by the Teller of the Farmers' and Millers' Bank, two photographic counterfeits on the *Hudson City Bank*, of this State—denomination 5's. No one familiar with bills will be deceived by them, as they are of a purple tint, instead of black, and the fine shaded lines under the letters in the genuine bills, are more *blurs* in the counterfeit. The number of the bill is 762. A solution applied to the bills takes out the color altogether. Examine the bills carefully.

THE DRED SCOTT CASE.—Every day developes some new and revolting effect of the decision of the majority of the Supreme Court in the Dred Scott case. The last we have noticed is this.—The Constitution confers jurisdiction upon the Supreme Court in controversies between "a State or the citizens thereof, and foreign States, citizens or subjects." Negroes, according to Judge Taney, cannot be citizens of the United States. But they certainly can be citizens of foreign States, for instance, of England. And thus a British negro can sue in our United States Courts, while an American free negro, born and bred on our soil, is excluded from the privilege.

DEATH OF CAPT. GUNNISON.—Judge Drummond, late of Utah, has written a very interesting letter to Mrs. Gunnison, giving the evidence upon which he charges the murder of her husband upon the Mormons. The details of the murder are shocking, and might, we think, have been well spared in the latter, but the letter seems to fix the guilt upon the foul wretches who follow Brigham Young.

INTERESTING CEREMONY.—GRANVILLE PENN, Esq., of England, a lineal descendent of WM. PENN, presented to the Pennsylvania Historical Society, a few days ago, the original belt of *Wampum* which was given to his distinguished ancestor by the Sachems of the Leni Lenapes, at the great treaty of the Shackamaxon, in 1682—the most memorable treaty known in all history. Mr. PENN presented the belt in person, and made a lengthy and interesting speech.

PORTAGE CO.—OFFICIAL.—Portage County has done better for Whiton than was reported. The official vote is 626 for Whiton to 211 for Cothren—majority 417.

REPUBLICAN VICTORY AT APPLETON.—The new city of Appleton comes in under good auspices, having chosen a Republican Mayor, and a majority of the city and ward officers.

☞ The North-Eastern Railway Company, in England, have lately paid £11,000 for breaking the ribs of one man, and $5,000 for killing the wife of another—showing which rib was worth the most.

TEA AND SUGAR.—These two articles are likely to be even more expensive than at present—The war in China interferes with a supply of tea; and the shortness of the sugar crop causes the high price of this commodity. At a tea auction in New York, recently, there was a very sharp competition, and 6,409 packages were sold in about fifty minutes. The *Courier and Enquirer* remarks:

The sale of teas by auction to-day must force a sigh from the inveterate tea-drinkers. Just think of it. A cargo of tea sold in fifty-two minutes, at prices, under the hammer, which carry the mind back to the times when the Central Flowery Empire was a greater mystery than now—when the precious herb was delivered—grudgingly as it were, to the "outside barbarians," at a single port. So large and rapid has been the advance in the price of teas, that a vessel from China, which was detained for weeks by sel from China, which was detained for weeks by head winds, and finally sustained extensive injury from the elements, nevertheless netted largely increased profits to her owners in consequence of the delay.

The prospect for cheap sugar is even more unpromising. A letter from Havana to the New York *Times* dated April 9th says:

It is now pretty well acknowledged that the sugar crop in this island will be shorter at least by one-fifth than last year's. Interested parties are doing their best to conceal the truth, but the time is fast approaching when the official statements must be published. A large number of estates bade already finished grinding, particularly in the vicinity of Matanzas. Throughout the whole island the cane has been more or less injured by the strong winds and excessively hard rains. In addition to these calamities, the frosts bit the young growth. I have heard also, that the yield has been quite small, compared with that of previous years, to such an extent that many of the estates have made at least thirty per cent. less than last year. This has had the effect of raising prices to the present exhorbitant standard, from which they will not abate.

EXTENSIVE REAPER WORKS.—We learn from the Elkhorn *Independent* that Mr. GEORGE ESTERLY, whose valuable improvement upon Reapers we had the pleasure of noticing two years ago, has found such a demand for his machines that he has purchased 5 acres of ground at Whitewater, and erected a factory, where he intends to carry on the manufacture on an extensive scale. He means to make 650 reapers this year.

SLAVES LEAVING VIRGINIA.—The Petersburg (Va.) *Express* says:—"Our citizens are beginning to observe the unusual number of slaves that are constantly passing through Petersburg on their way South; and to the minds of many the result appears inevitable that it will need but the work of ten or twenty years to clear Virginia completely of that part of her population. A company of one hundred passed through on Saturday."

COPPER IN VIRGINIA.—Valuable discoveries of copper have recently been made in the Blue Ridge mountains, in Virginia, on the border of Fauquier and Rappahannock counties. One rich vein has been traced for a mile and a half, and supposed to contain 70 to 75 per. cent. of pure copper.

DIED.—Robert Armour, a prominent business man, of Montreal, where he had resided a half a century, died on the 17th instant. He was the "oldest inhabitant" of the city, and a man greatly respected and beloved.

FAST.—The new ocean steamer Vanderbilt, on her trial trip last Saturday, ran seventeen miles in fifty-five minutes against an ebb tide, with a pressure of 18 pounds of steam. This beats any time a Cunard ever made.

LAKE SHORE RAILROAD NONPLUS.—The Ozaukee *Advertiser*, in noticing a proposition made by the Milwaukee and Superior R. R. Co. to the people of that county, says:

The President of the Road, Mr. Alton, and the Attorney Mr. Stark, give us ample assurance that by the aid of the county with the sum named we shall have a railroad connection with Milwaukee and Chicago by the first of November next. Then let every friend of the project in the county, put his shoulder to the wheel, and use his utmost endeavors in forwarding an enterprise which is to be the means of putting us out of the wilderness and on a par with our neighbors on the lake shore.

Trempeleau County—Official.

GALESVILLE, Trempeleau Co, April 14.

Dear Sentinel:—The canvassers to day have declared Judge Whiton's majority in this County to be 210.

No returns from the Town of Sumner; had there been his majority would be greater.

Ben. E. Heuston is re-elected County Judge.

Truly Yours, J. N.

ARREST OF A WISCONSIN MAN IN KANSAS.—The Kansas correspondent of the Boston *Traveller*, says:

A young man from Wisconsin, named Caudell, and residing at Pottawatomie, was arrested by a party of four men, and first carried to Lecompton, and afterwards taken into Missouri, on a charge of horse-stealing. They came down to his cabin and coaxed him out, under pretence of wishing to trade a horse; persuaded him to mount, in order to try the animal, and then surrounded him and rode off. The thing was so well done that a rescue was next to impossible. Prof. Daniels informs me that Caudell is well known to him, and that he was one of the best men in the company brought out by the Professor last fall. It was at first supposed that he was arrested for complicity with the shooting of Dutch Henry, and fears are entertained that the carrying into Missouri is only a ruse by which they can more easily effect their purpose of being revenged upon those they supposed killed Henry.

MILWAUKEE & SUPERIOR R. R.—Mr. Alton, President, and Mr. Stark, Atty, of the Milwaukee & Superior Rail Road Company, casually met some fifty or one hundred of the inhabitants of Ozaukee county at the Union House in Port Washington on the 15th inst., in the evening.—It was agreed that there should be a sort of a social conversation about the Railroad, and for that purpose Mr. J. I. Loomis was called to the Chair, and G. W. Foster appointed Sec'y. Mr. Alton proposed on behalf of the Company, that if Ozaukee County would lend her credit for $200,000, besides about $50,000 of private subscription taken in and around Port Washington, the Company would not only secure her against any loss, but would agree to build the road as far north as the north line of the county by Jan., 1858. Citizens from every town in the county, except one, we believe were present. The proposition was favorably received that a committee of five, Messrs. Foster, Kilgore, Bager, Lotfring and Gove, with power to add others from various parts of the county, was appointed to address the electors of the county in favor of the loan. We believe that there was not any one present opposed to it. Several gentlemen who opposed the loan heretofore, publicly expressed themselves in favor of this one. The particulars of the proposition, it was resolved, should be embraced by the committee in their address, which should be published in the county papers, and circulated in hand-bills.

J. I. LOOMIS Ch'n.

G. W. FOSTER, Sec'y.

PLANS FOR THE STATE CAPITOL.—Plans have been received at the Executive Office, for the enlargement and improvement of the State Capitol, in accordance with the law of last winter, from the following named architects:

E. Townsend Mix, Milwaukee, two plans.
Dillenburg & Zuker, Milwaukee.
T. H. Green, Fond du Lac.
Mr. Backus, Chicago.
Donnell & Kutzbock, Madison, two plans.
Mr. Chatterson, Madison.
Theodore Knudson, Madison.

The Governor not having returned from Oshkosh as yet, these plans have not been fully open for inspection. We have seen a portion of them, and can safely say, that either one would be a vast improvement upon the present Capitol. We hope soon to be able to announce that a plan has been adopted, and that the work on the construction of the building has commenced.—*Madison Journal.*

THE CENTRAL ROAD.—Contractors have broken ground anew, at Whitewater. A gang of fifty to a hundred hands commenced this week, and the Road is to be prosecuted with vigor, and to be finished to Jefferson this season.—*Elkhorn Independent.*

Correspondence of the N. Y. Tribune.

Western Wisconsin.

PRAIRIE DU CHIEN, April 16, 1857.

The first through train over the Milwaukee and Mississippi Railroad arrived here last evening.—The train left Milwaukee at 7 o'clock in the morning, and in so good a condition was the road, notwithstanding the bad weather which of late has prevailed in this region, that the train made capital time from station to station, and arrived here at precisely 5 o'clock P. M. The Directors and officers of the road, the members of the Press at Milwaukee, Janesville, and Madison, the Mayors of the several cities, the President of the Milwaukee Board of Trade, the Agents of several Transportation Companies, the officers of other Railroad Companies terminating at Milwaukee, constituted the passengers upon the train. The day though cold, was bright. The comforts of the passengers had been provided for, and it was a delightful journey.

The beautiful city of Madison was passed at 11 o'clock. Thence we soon came into the valley of the Black Earth Creek—not a very poetical name; but the exceeding beauty of this gem of a valley, and the picturesque scenery along its margin, created by the grassy hills and wooded bluffs, made good for any poetry which its name might lack.

At Mazo Manie the valley of the Black Earth loses itself in the more magnificent valley of the Wisconsin. This point is say twenty-two miles from Madison. Here our friend Booth of *The Free Democrat* and a few other gentlemen took the opportunity to ascend a high bluff in the rear of the depot, from which stretched out one of the handsomest land scapes that I have ever witnessed. The eye glances down the valley of the Wisconsin which runs nearly due west, for forty miles and the Milwaukee and Mississippi Rail Road makes a straight line for this entire forty miles; and as there are no undulations to the bed of the valley from the elevation above named, the eye commands sight of a train of cars for the whole distance—the like of which, it is presumed, cannot be witnessed elsewhere in the country. Not but that there are other as long or longer, straight lines; but they are either without the observatory by which the spherical form of earth is overcome to the beholder, or the country is so undulating that much of the time trains would be lost to sight.

From the Mazo Manie (which name signifies the iron that walks) we swept along down the valley in fine style—the road so direct and smooth that we passed at the rate of thirty miles an hour, scarcely noticing the motion of the cars. The cars, by the way, were new and very fine. The valley of the Wisconsin has a mean width of three miles. It is very level. Upon either hand the bluffs rise from three to five hundred feet. These bluffs are cut through continually by greater or lesser ravines, down which come numerous streams, giving fine water-powers in many cases. After going back from these bluffs a short distance, you come upon a fine open country of the very best of land. The country, I am informed, is taken up and under cultivation. But still there remains much fine land unoccupied, and from its low price it is very inviting to new settlers.

These headlands or bluffs are very handsome. Some of them are entirely destitute of timber, but covered with grass, and are very smooth, as if the nicest artificial culture had been applied to render them so. Then again, they are covered with the majestic oak, with no underbrush or rubbish beneath, like a park in the highest cultivation. The quality of soil along the valley is of various kinds, some of it light sandy loam, which with skilful culture, would be made the best land in the state, it being so very sunny and warm; while the bottoms, as they are called, are as rich as it is possible for lands to become, and must always remain so, as for all time the "Old Wisconsin" will bring down the wash from the great north and make its annual deposit of rich manure.

The Wisconsin is a broad but shallow river.—The Railroad Company has wisely built three bridges across it, so that the country along could have upon either side convenient access to the road. The bridges are fine structures, resisting the ice and Spring freshets admirably, and reflect much credit upon the engineer of the road.

At five o'clock to the minute—the time we were due—we reached Prairie du Chien, and found a large concourse of the citizens to greet our arrival. Such old anvils, and tin tubes stuck in the ground, as could be laid hold of, were filled with powder and discharged upon the occasion.

Were you ever at Prairie du Chien? Never did nature employ her handiwork to better advantage in laying out the "land" for the site of a city than here; and the old French explorers were wise in establishing here a settlement. The population at present is about 3,000. A great city, under the influence of the Milwaukee and Mississippi road, and other roads concentrating here, must arise upon this ancient site.

After exploring the town until dark, the guests, with some of the leading citizens of Prairie du Chien, sat down to a sumptuous repast at the Granite House, and, amid the greatest good feeling, resolved that the Milwaukee and Mississippi Railroad was one of the best built, best located and best managed in the land—and surely much of this is true. It is unavoidable that it must steadily grow into one of the best business roads of the country. It may be slower in reaching its maximum of business than some other roads, but in the end its business is absolutely certain to come. The general belief prevails that, whatever may be true of other roads, it is true of this that it has been built with a strict regard to economy, and a jealous care of the best interests of the corporation.

It will prove a great blessing to the people and State of Wisconsin, and may its success be equal to the high hopes of its projectors and managers. H.

An Ocean Race—Steamship Vanderbilt Against the Persia.

The Vanderbilt Steamship Line, which has for so long a period remained inactive, pending the result of the efforts that have been made for securing to it the privilege of carrying the U. S. mails, has at length been put in successful operation.

The new and magnificent steamer Vanderbilt, will sail for Southampton on the 4th of May, and the result of her performance is looked forward to with the liveliest interest on both sides of the Atlantic. The Persia having reduced the average length of the passage to and from Europe, nearly two whole days each way, and standing confessedly without a rival among European or American steamships, this sailing of the Vanderbilt is an event of no small importance in determining whether British or American maritime skill has reached the higher point of excellence.

The extreme length of the Vanderbilt is 320 feet, her breadth of beam 40 feet, depth of hold 33 feet, and according to carpenter's measurement, she is 5263 tons burden. Her four tubular boilers, each 30 feet long and 14 feet deep, are placed athwartships—and are constructed in the same manner as those of the Persia. She has two cylinders, each 90 feet in diameter and of 12 feet stroke of piston, and is furnished with two walking beam engines constructed on the American plan, in contra-distinction to the English side-lever engines, which are much more complicated and are on that account much more liable to accident. Her paddle wheels are 42 feet in diameter, and 10 feet space. She will draw, when loaded, but 21 feet of water, while the draft of the Persia is 24 feet. The Persia slightly exceeds the Vanderbilt in length, but the latter, from the fullness of lines, and great buoyancy, has more carrying capacity.—*N. Y. Courier.*

At her trial trip the "Vanderbilt" ran nine miles in 31 minutes with 21 pounds of steam.—This speed would propel her 408 miles in 24 hours, and take her to Liverpool in a week.

REMOVAL OF THE OFFICE OF THE SURVEYOR GENERAL FROM DETROIT.—In accordance with a clause in the first section of the appropriation bill, approved March 3d, 1857, instructions have been issued by the Commissioner of the General Land Office, for the removal of the office of the Surveyor General from Detroit, Michigan to St. Paul, Minnesota, as soon as practicable; also instructions to the land officers to prepare to turn over to the proper authorities of Michigan, the archives pertaining to land surveys in the State, so as to close finally the business.

RAILROAD MATTERS.—We are informed that the present cash subscriptions to the capital stock of the Great Northwestern Railroad Company amounts to $300,000, which, with City Bonds, makes their available money foot up $800,000. This, we think, is doing pretty well for a Railroad Company who have not even had a Charter but two or three months, and speaks well for their energy, and the enterprise of our citizens. We are further informed that the contract for the Road from here to the Summit, including the Bridge, will be let at the earliest possible moment.—*Galena Adv.*

☞ A few nights ago, in Philadelphia—an opera night—it rained early in the evening: but the Academy was crowded, and before the performance was over the rain ceased and the stars came out brilliantly. When the audience were about to leave, half a dozen young scrapegraces planted themselves along the curbstone in front of the theatre, and stood there with umbrellas up, in full view of the main entrance. The consequence was a general hoisting of umbrellas when the audience reached the door. The sympathetic putting up of silk and gingham caused considerable merriment among the dupes when they discovered the stars shining brightly over their heads.

AT WORK.—The repairs on the city Dredge are now completed, and it commenced operations along side the Railroad Dredge between the Harbor piers on Saturday last. Both are now in first rate working order, and under the supervision of Capt. FRED KNAPP we are confident that in a very short time we will have a channel sufficient to admit any vessel that floats the Lakes.—*Racine Journal.*

LECOMPTON, K. T., April 8.

Official Murder.—I have just heard of the shooting and death of a Free State man named Martin Kline, at a place between this point and Leavenworth. The murder, being "official," is of course a "Law and Order" transaction. The individual who performed this "National Democratic" service for the Pro Slavery party, is a man named Merril Smith. He is, or pretends to be, Deputy Sheriff of Leavenworth County. The deceased was arrested last Fall on the charge of being at the battle of Hickory Point. Then nothing could be proved against him, and he was discharged. He was not really present at that time. A warrant has been issued against him, in which he was charged with horse-stealing.—The stealing was alleged to have been done at the time of the Hickory Point affair, but, I have no doubt, was also untrue. The probabilities are that some of his Pro Slavery neighbors dislike him, or want his claim. Deputy Sheriff Smith tried to make the arrest on Sunday. As it still further to show his contempt for sacred, he waited until his victim was in attendance on religious services. Being evidently bent on mischief, he took a "posse" with him, who, no doubt, felt themselves authorized to disturb the public worship of "Abolitionists." The warrant was read in church. No doubt this is part of the services of the "democratic" religion professed by the *Rev.* Martin White. Mr. Kline refused to go with the Deputy Sheriff then, but expressed a willingness to do so on Monday, or any week day. On his persisting in his refusal, Smith drew his revolver and commenced firing at Kline. He discharged every barrel of his pistol. One of his "posse" was mortally wounded, as he had several severe wounds. He has since died. The house was crowded, and the incident occurred during service. Luckily no other person was shot. As Smith and his band of miscreants were the only persons who appeared to be armed, they made good their retreat. I would commend the claims of this man Smith to the consideration of Mr. Buchanan. Had he merely murdered a Free State man, he might have been entitled to no more than the immunities of carrying on such a pleasant pastime; but his violation of an "Abolition" sanctuary, his delicate perception of the proper day to make arrests, and the fact of his doing resolutely in among a crowd of unarmed Free State men and women, all point him out as a fit subject for Executive reward. He is almost as meritorious as Emory, and the services of *Major* Murphy pale before him.

New York Fifty Years Ago.

To the Editors of the Courier & Enquirer:

A mercantile notice in your paper yesterday, recalls so vividly a like notice, issued in the chief commercial paper of this city, *Lang's Gazette*, all but half a century ago, that I must pray you to spare to the reminiscence thus revived, a brief space in your journal—valuable as that space necessarily is.

Archibald Gracie, of Mobile, announces that he has taken into partnership his son Archibald, and that the business will be continued under the firm of Arch. Gracie & Son. Nearly fifty years ago, the father of this Arch-bald Gracio announced here that he had taken into partnership his son William, and that the firm would be Arch. Gracie & Son. That firm in this city, and that father and that son have passed away—but not so the memories in some yet surviving hearts—and the most endearing memory is that of the heart—of the liberal spirit, the intelligent and far-reaching enterprise, and especially of the kindly, generous sympathy with all connected with their business in whatever way—which distinguished that firm. The good name and fragrant memory of the fine old New York merchant, whose beautiful ships, and well-known red and white pilot-boat signs were familiar in every sea—remain a pride and an inheritance to his children and his children's children—and when at this distant day, that name is revived and reinstated though in a far off city, by a son worthy of it in manliness of character, integrity of dealing, and intelligence of enterprize, it may be pardoned to one who knew, and shared the love of the father, to express the delight with which he hails and welcomes this revival by the son and the son's son, of a three-honored firm.

Few indeed, comparatively, are those, who from personal recollection can sympathize in this his joy—for about two generations have come and gone since that day, and the ample Mercantile Directory of this city does not probably now contain *half a dozen firms* which were in existence then—and if our partnerships have changed, how remarkable the change in other respects.

At the time to which reference is made—about 1800—the city of New York contained 60,000 inhabitants. It now contains, exclusive of its suburbs on Long Island, Staten Island, in Westchester and New Jersey, some 650,000.—There was then but one steamboat in the world, and that belonged to New York, and floated on the Hudson. Now, steamboats are as numerous almost as three-masted ships, and their smoke fumole are seen at every wharf. Mobile then was a Spanish possession, and the State of Alabama was not. The whole tonnage of the United States may then have been about 900,000.—The tonnage of the ports of New York alone now exceeds 1,900,000. The largest merchant ship then known to our commerce did not exceed and rarely equalled 500 tons. Now they go up to 3,500.

The sea-going steamer, the railroad, the electric telegraph were unheard of. The extremest northern limit of the city was the open ditch in Canal Street—the region beyond was country houses, tea gardens, orchards and corn fields.—No omnibus had then vexed our pavements, and few and far between were the fire engines, which ran then in the middle of the street, and not on the sidewalk. Then the tolling of the bell was the signal for every good citizen to turn out with his regulation leathern *buckets* in hand, and falling into line, hand them along from cisterns and pumps to the fire. Pumps then at frequent corners, and often in the middle of the street, supplied all the water used, and not a little embarassed the militia tactics on grand holidays and parade days, in maneuvering around and about them so as to preserve the line. The *Croton* then was renowned only for its *striped bass*.—The hour then was early and habits simple—high Change at 12 M., and dinner *late*, at 3 o'clock, and as work again in the counting house after dinner.

The old City Hall, where now stands the Custom House, was then in honor, and *the* great building of the city. It was of modest size, yet was there room in it for all the municipal legislation, all the municipal offices and the courts of law. All the voting of the city was done there, and then each election lasted three days. But I promised to be brief, yet the chapter of the past, when once opened by the magic of a cherished name and precious recollections, is very tempting—yet I stop. C. K.

An Arctic Bath.

Bayard Taylor writes from Lapland to the *New York Tribune*, the following concerning his experience in Arctic bathing:

Mr. Wolley proposed to me another luxury, in the shape of a vapor bath, as Herr Forstrom had one of those bathing-houses which are universal in Finland. It was a little wooden building without windows. A Finnish servant-girl, who had been for some time engaged in getting it in readiness, opened the door for us. The interior was very hot and moist, like an Oriental bathing-hall. In the center was a pile of hot stones, covered with birch boughs, the leaves of which gave out an agreeable smell, and a large tub of water.—The floor was strewn with straw, and under the roof was a platform extending across one end of the building. This was covered with soft hay, and reached by means of a ladder, for the purpose of getting the full effect of the steam.—Some stools and a bench for our clothes completed the arrangements. There was also in one corner a pitcher of water, standing in a little heap of snow, to keep it cool.

The servant girl came in after us, and Mr. W. quietly proceeded to undress, informing us that the girl was bathing master, and would do the usual scrubbing and shampooning. This it seems, is the general practice in Finland, and is but another example of the unembarrassed habits of the people in this part of the world. The poorer families go into their bathing rooms together—father, mother, and children—and take turns in polishing each other's backs. It would have been ridiculous to have shown any hesitation under the circumstances—in fact, an indignity, to the honest, simple-hearted, virtuous girl—and so we deliberately undressed also. When at last we stood, like our first parents in Paradise "naked and ashamed," she handed us bunches of birch twigs with the leaves on, the use of which was suggested by the leaf of sculpture. We mounted to the platform and lay down upon our backs, whereupon she increased the temperature by throwing water upon the hot stones, until the heat was rather oppressive and we began to sweat profusely. She then took up a bunch of birch twigs which had been dipped in hot water, and switched us smartly from head to foot.—When we had become thoroughly parboiled and lax, we descended to the floor, seated ourselves upon the stools, and were scrubbed with soap as thoroughly as propriety permitted. The girl was an admirable bather, the result of long practice in the business. She finished by pouring hot water over us, and then drying us with warm towels. The Finns frequently go out and roll in the snow during the progress of the bath. I ventured so far as to go out and stand a few seconds in the open air. The mercury was at zero, and the effect of the cold upon my heated skin was delightfully refreshing.

COMMERCIAL.

THE MARKETS, &c.

OFFICE OF THE DAILY SENTINEL, MILWAUKEE, April 29, 1857.

Received by Rail & Lake, this day:
1,000 bbls flour, 2781 bu wheat, 18 bbls tallow, 18 hides, 3 bales pelts, 2 cars hay, 1 do cattle, 1 do stone.

By Rail. & La Crosse R. R.—1402 bu wheat, 50 bbls flour, 1870 pounds hides and pelts, 6,083 lbs sundries.

Watertown Division—200 bbls flour, 175 bus wheat, 1 box cigars, 51 hides and pelts.

By Rail. & Horicon R. R.—1315 bus wheat bu wheat, 195 bbls flour, 15 bu potatoes, 22 hides, 10 bbls dry skins, 16 bu grass seed, 1,760 lbs machines.

The produce market is becoming more active, and still advancing. Dealers in wheat are more confident daily, as the condition of other markets become more certain. We understand that the lot of 17,000 bu winter wheat purchased here a few days since was *to go to St. Louis*, and that vessels have been chartered to carry it to Chicago at 3c. Prime white wheat is quoted in St. Louis, at our last dates, at 1,05a1,10. We also understand that a cargo of superior club spring had been purchased here for the same destination. This is a new notion in trade, and if much business is done in that direction, must make a good deal of difference in the calculations of dealers.

We note sales in Buffalo of Milwaukee Club wheat on the 23d, at 1,18a1,19. Corn sold the same day at 88a90.

FREIGHTS—Holders of vessels are still asking 10 cents on wheat to Buffalo, and 15c to Oswego, but shippers are unwilling to pay these rates, and feel confident of getting cargoes on board for less. Vessels are coming in daily from the south for cargoes, and it is understood that some of them are chartered at a matter of fact, but we could not get at the facts.

We noticed the following vessels in the river yesterday, already loaded:

	For Buffalo. Wheat.	Flour.
Schooner W. H. Stevens,	12,500 bus.	
" D. Tesla,	12,500	
" L. J. Farwell,	16,000	
	For Oswego.	
Schooner Acontias,	16,500	
" Detroit,	15,000	
" Norwegian,	8,000	6,500 bbls.
	For Ogdensburg.	
Propeller Wisconsin,		1,900
	For Montreal.	
Schooner Lark,	17,000	
" Louisa,	9,000	2,000
Propeller Prairie State,		3,750
" Michigan,		413
Schooner Goldsmith,		209

Wheat—Club Spring in good demand at 93a95, winter 1,12a 1,20.

Rye—none offered—nominally 70a75.

Barley unchanged—scarcely enough offered to make a quotation. Prices range with—a prime article brings 1,00, and very choice for seed in small lots, 1,15.

Oats wanted at 39a55.

Corn firm at 85a86.

Potatoes—in demand at the advance—we quote sales at 31a37½.

Hides—5a8½ for green—13a20 for common to good trimmed dry.

Chicago Market.

CHICAGO, April 27.

Freights are unsettled to-day. No charters for the Lower Lakes have come to our notice. The schooner Mt. Vernon was taken for a trip to Grand Haven for lumber at $2 25 per M, and the same rate was offered for season contracts. A good many vessels were offered for Buffalo and Oswego to-day.

WHEAT—The wheat market continues gradually to improve and prices are held at a very material advance—Of prime winter the market is almost bare, a cargo of July to arrive sold Saturday at $1,20 to a dealer who owns about all here and controls the market; it is held cents readily higher than this to-day; 1,20 was offered for white and 1,17½ for red—there being little here. At St. Louis Saturday, red sold at 1,02½, while the top of the market for strictly prime white was up to 1,05. For a cargo of Milwaukee club an offer of 1,07 was made here to-day, on board at Milwaukee. Like was asked; Chicago spring is held at 1,02a1,03 in store, though 3,000 bu sold at 1,03½ on board now.—*Tribune.*

Schooner Transit, Hong, Manitowoc, 63,000 ft lum, 50,000 shingles.
" Persian, Thomson, Chicago, to load.
" Gem, Stowell, Chicago, to load.
" Norwegian, Alexander, Chicago, to load.

CLEARED.

Schooner Stronach, Wade, Manistee, 4 tons coal.
" Transit, Hong, Manitowoc, 50 bbls flour, 10 tons mdse.

Marine Intelligence.

☞ We are pleased to hear that a large and very fine vessel, built at Oakville by Messrs. Woods, Pilkening and Chisholm, for Mr. Dorcas, of this city, intended for the Chicago trade, was launched on Wednesday, in the finest style, from the builders' yard into her appropriate element. She is named the *City Belle*, carries a figure of a Highlander, carved by Mr. Fleming. She will be 60 keel-last and carry about 2,000 yards of canvass. She has 150 feet keel, 25 feet moulded beam, and is 8 feet 8 inches in hold, and is expected to carry 14,000 bushels of grain. She will be ready for cargo about the 5th of May, at latest. She will sail most fleetly, and we hope the spirited owner may have occasion to repeat his love unto.—*Toronto Globe, April 23.*

☞ A new and important improvement will, for the first time, be introduced on the Lake this season, by the Lake Navigation Company, in two or three of the fine barks. We allude to Mr. Sweeney's patent for shipping apparatus, by which it is intended to make a revolution in navigating sail vessels. With the aid of this invention the sails of a square rigged vessel may be reefed from the deck by two or three hands, in the strongest gale, in a better manner than it is possible to be done by the old system of reefing, and in a space of time almost incredible.—*Buffalo Republican.*

THE STRAITS.—The impression among our shippers yesterday was that the Straits are open. This was strengthened by the report of the Captain of the Vincennes, which arrived from Manitou in the afternoon, that the brig Detroit was in Green Bay last week, and that vessels were floating out in the lake. The ice in the Bay and the Straits generally also was about the same time. If they are open however, we will very soon have reliable intelligence of the fact.

The tug Salvor went out in the afternoon to rescue the Denmark.—*Chicago Press.*

BREAK IN THE WELLAND CANAL.—Private advices were received yesterday from the Welland Canal, stating that four of the lock gates had been displaced, and that the boats lying and running in the Lake Ontario fleet had to proceed upwards more at the lower end of the Canal, below the injured lock. The repairs would take six days, and were going on by the Government of the Queen-bond fleet for that length of time.—*Chicago Press.*

A NEW FARM.—Barnum Blake, Esq., of this village, is about building a set of barns on his farm seven miles north on the Plank Road. The site selected is a good one, being in the vicinity of a good and healthy grove of timber, and a depth of water sufficient for all practical purposes.—*Cheshire, Adv.*

RECENT NEWS.—The light-draught steamer Falls City, Capt. Wright, left for St. Paul, with a good cargo. Orrin Smith, one of the obliging clerks, states that the lake does not appear to be clearing of ice; yet the Falls City started out with the determination to reach St. Paul and Stillwater before her return.—*Galena Adv.*, 25th.

☞ The Celestia, which went ashore here in the gale of the 1st inst., pulled off safely, having undergone thorough repairs.—*Racine Adv.*

☞ The bark Northern Light is loading wheat for Montreal at the warehouse of S. C. Tuckerman Esq., and the brig Marquette, which arrived on Saturday, will also take a cargo at the same warehouse.—*Ib.*

LAUNCH.—The new tug which has been building the past winter, is to be launched on Tuesday (to-morrow) afternoon,—the weather permitting.—*Outsked Adv.*

William Herman, for Larceny.
Carl H. Gramp, " "
Timothy Lynch, " "
Isaac Pierce, " "
Frederick Pfister, " "
Mary Ann Fuller, " "
Ellen Polley, " "
Frederick Pfister and Isaac Pierce were arraigned—the former plead guilty, and the latter not guilty.
The Grand Jury are still in session.

SERIOUS RAILROAD ACCIDENT.—The following particulars of a serious, if not fatal accident on the La Crosse R. R. yesterday, were given to us by Dr. Kilbourn, of St. Johnsbury, Vt., who was on the train:

The morning train coming east, when a mile the other side of Beaver Dam, met with some obstruction, which suddenly threw the engine off the track, toppling over and over down an embankment. The tender followed, and the baggage car was thrown partly off, but the remainder of the train remained on the track. As the engine went over to the right, the engineer, Mr. Chandler, leaped to the left, and was struck by the tender so violently as to receive very serious internal injuries. He was cared for at once by Dr. Kilbourn, who gives great praise to conductor Cass, and taken to Beaver Dam. It was reported late in the day, that Mr. Chandler was dead.

The fireman went over and over with the engine, but crawled out unhurt, though reasonably scared. No one of the passengers received any injury. The passengers on the train were transferred to the out train on its arrival at Beaver Dam, and reached here an hour or two behind time.

Miller's Type Foundry.

We paid a visit, yesterday, to the Type Foundry recently established in this city by Mr. E. Miller, formerly of Albany. Mr. Miller himself was absent, having gone east to purchase new machines and additional stock, the orders for type having come in upon him much more rapidly than he had expected when he commenced business. His foreman very civilly showed us through the establishment. There are three casting machines now in the foundry, and Mr. Miller will bring with him three more, and for these there will be enough to do. Each of them will cast from 70 to 80 lbs of type per day. The apparatus for stereotyping and electrotyping will shortly be set up.

We see in this establishment, yet in its infancy, the beginnings of what must be a very large business in our city, and do not doubt that Mr. Miller will be abundantly rewarded for his enterprise.

The foreman showed us, in a small safe, a set of tiny drawers, the whole occupying a space of less than three square feet, the stock of copper matrices used in his business—each letter or character in the various fonts having its own matrix—valued at $6,000, giving some idea of the expense of a Type Foundry even on a moderate scale.

Mr. Miller has on hand now a large stock of job type, and will soon be able to meet all orders for metal and wood type, cases, furniture, &c.

Milwaukee Gas Light Company.

At a meeting of the Board of Directors of the Milwaukee Gas Light Company, held April 27, 1857, it was

Resolved, That this Company regret that our Secretary and Superintendent M. W. Clarke, has seen fit to tender his resignation as an officer of this Company.

Resolved, That this Board appreciate the valuable services rendered by Mr. Clarke, as the Managing Officer for the last three years, having taken charge of the Works in their infancy, and while in a very imperfect state, and by his energy, integrity and mechanical ability, has made them remunerative to our Stockholders and valuable to our city.

Resolved, That our President be authorized to offer to Mr. Clarke, at the expense of this Company, a suitable testimony of the regard which we entertain for his services.

Resolved, That a copy of these resolutions be published in the papers of this city.

By order of the Board.

E CRAMER, President.

At the same meeting, Mr. Ingos was appointed Secretary, and Mr. Hayden, Superintendent.

A COURSE OF HISTORICAL LECTURES ON EUROPE.—At the close of Dr. Baird's lecture on Monday night, an invitation was extended to him to remain in the city and deliver a course of Historical lectures on Europe—Messrs. W. P. Lynde, A. D. Smith, H. Reed, E. D. Holton and several others, united in pledging the Dr. $250 for the course.

Dr. Baird accepted the invitation, and, we are pleased to learn, will commence this second course on Friday evening. The attendance upon these lectures increases nightly, and it ought to be so, as they are highly interesting and instructive.

KALLISTON—FLAVORING EXTRACTS, &c.—We are indebted to Messrs. Bosworth & Sons, wholesale Druggists, for a package of bottles containing samples of Burnett's Extracts for flavoring articles for the dessert, and bottles of the far famed *Kalliston*, or Orient Water, and the *Oriental Tooth Wash*. The Kalliston comes recommended by the strongest array of testimony that we have seen given to any preparation for clearing and softening the skin, while the latter is highly praised by the *Dental News*, and other papers which do not lightly testify to the qualities of such articles.

BRIDGE TENDERS.—The bridge tenders and their pay are as follows:

Walker's Pt., Peter Averell, $40 per month; John Ryan, assistant, $35.

Menomonee, George Crombie, $36, John Cumer, $35.

Clybourn street, M. Lodge, $30; D. Hafner, $30.

Spring street, M. Dewrin, $37 50.

Wells street, J. J. Loisie, $30.

Chestnut street, George Martin, $15.

COLTON'S GENERAL ATLAS.—Mr. C. A. Buttles, of this city, has taken the Canvassing Agency of Colton's General Atlas for the State of Wisconsin, and will, during the current season, make a pretty thorough tour of our State. The Atlas is an excellent one; accurate, comprehensive and complete. It is printed in the best style and substantially bound. For the school-room, or family circle, as well as for office and libraries, Colton's Atlas is all that could be asked. Mr. Buttles, the Canvassing Agent, is courteous, intelligent and trust-worthy.

☞ We would call the attention of the Aldermen of the Third Ward to the condition of Michigan street, between Main and Milwaukee streets. The opening ought not to remain over a week longer without being filled. We would advise them to go and take a "peep" at the aperture, if they take no further *steps*.

MUSICAL SOCIETY CONCERT.—Another of these attractive entertainments will be given at Young's Hall this evening. The Programme will be found in our advertising columns.

TRUE TIME.—Observations with the Sextant, taken April 26th, 1857, on Van Colt's Block—mean of six observations:

Time of day 1 hr, 47 min., 53 sec.
Angle 104 deg., 14 min., 00 sec
Altitude of sun's centre, 59 deg., 15 min., 15 sec.
Latitude of Milwaukee, 43 deg., 02 min., 45 sec.
Polar distance, 76 deg., 56 min., 00 sec.
Apparent time from above observations, 1 hr, 46 min., 00 sec.
Equation of time to day 2 min., 29 sec.
Mean time, 1 hr, 43 min., 29 sec.
Van Colt's time 1 hr, 47 min., 53 sec.; 36 sec slow.

R. CHANDLER.

FARNHAM'S CHAIN AND BUCKET.—We were shown yesterday a very ingenious affair in the shape of a model for a well apparatus, by which the buckets are drawn up with little effort, and amply themselves into the trough without handling. One of them has been put into service at Johnstown, in this State, and is said to work admirably. Mr. W. G. Hamilton resides at Milton, Rock Co., where he is selling rights for towns and counties.

LECTURE THIS AFTERNOON.—It will be remembered that Dr. Baird gives his lecture and stories about Europe, this afternoon, at 3 o'clock, at Young's Hall—Every child in the city should be allowed to attend.—Ladies also, who have leisure, will find the lecture in the highest degree instructive and entertaining. Tickets 10 cents for all ages.

WELLAND CANAL BREAK.—We were last evening shown a letter from a reliable person to a firm in this city, stating that four of the locks in the Welland Canal had given way, and that it would take at least two weeks to repair the damage. This must delay for some time the arrival of the large fleet of vessels bound up from Lake Ontario.

THE BLIND PIPER.—The farewell Concert of Mr. Ferguson, the Irish Piper, takes place at the Albany Hall to night. Mr. Ferguson has been led to believe that a large number of our American born citizens desire to listen to the music which he brings from his instrument We hope that he will have a full house.

INSURANCE ON THE SCHOONER EMILY.—This schooner, the *Wisconsin* says, was insured in the Commercial Ins. Co. We had our information from Mr. Thomson, one of the owners, and supposed that he knew where he was insured.

VALUABLE PROPERTY FOR SALE ON SPRING ST.—A chance to buy a valuable residence lot on Spring St., which is one of the finest avenues in the city, will be seen by the advertisement of Mr. A. W. Goetz.

NEW WATCH HOUSE.—The new watch house will probably be built on the lot between Mason and Oneida Sts., on Main St., next to the Hook and Ladder House.

HANDSOME STORE.—See the advertisement of Messrs. Jones, Dibbin & Jones. Their new store is certainly one of the handsomest in the city.

HOUR FOR OPENING THE POST OFFICE.—The Post Office is now opened at 7,30 A. M., not 9,30 as the typos—perverse things—made us say, a day or two since.

CITY AUCTION ROOM.—Sale of furniture to be continued this morning at 10 o'clock.

TAKE HEED.—At the Massasoit House, Chicago, may be obtained until June, Old Dr. James' wonderful and celebrated extract of Garnish's Indica. Blessed in law. Dr. Thomas Tilton will supply you with either personally, or by Express. It is a sure and speedy cure of the worst cases of consumption, bronchitis, asthma, nervous debility, coughs, colds and sore throats. We know this to be a fact. Try it and live.

P. S.—By addressing Dr. Tilton a note through the Chicago Post Office, inclosing four stamps (12 cents) a recipe will be sent in return, free of charge, to any part of the Union. DR. TILTON,
mar16-c359.2m. Massasoit House, Chicago.

SPECIAL NOTICES.

BADGER STATE SAFES!
FIRE & BURGLAR PROOF!

THE WIDE EXTENDED and constantly increasing reputation which our safes have acquired, for unequalled durability and finish, warrants us in calling the attention of the public to our increased facilities for manufacturing the same.

The numerous improvements which we have added to our Steam Works, (Nos. 215, 217 and 221 East Water St.) places us beyond the reach of competition in our line of business.

The severe tests which the Badger State Safe has stood both in this city and elsewhere, establishes its proof against fire and water for the protection of valuables.

All orders promptly attended to. Address

CONSUMPTION
—AND—
DISEASES OF THE THROAT AND LUNGS!!

DR. W. HUNTER, late of St. Louis, has permanently located in this city for the special treatment of all diseases appertaining to the Lungs and air passages, Sore Throat, Chronic Enlargement of the Tonsils, Elongation and Enlargement of the Uvula, Acute and Chronic Laryngitis, Acute and Chronic Bronchitis, Catarrh of the Head, Clergyman's Sore Throat, and Consumption.—MEDIOATED INHALATION, whereby the remedy is brought in direct contact with the diseased parts, besides all remedies known to the medical profession, will be used, as symptoms require.

From the long experience he has had in auscultation and percussion, combined with success in treatment, he deems himself warranted in assuring the public of his professional skill in the treatment of these diseases.

Persons at a distance, sending a full description of their case, will receive treatment according to their symptoms. DR. W. HUNTER,

Great and Extensive Sale of Lots in Portage City, Columbia Co., Wis.

TWO HUNDRED LOTS.

THIS CITY OF PORTAGE is a very desirable place, and holds out great inducements to all who are now contemplating to Wisconsin. It contains a population of from ten to twelve thousand. It is handsomely laid up, and has all the conveniences for comfort that any other city in the West has. There are already two Banking Houses and several Exchange Offices in the city, a few of the leading ones are the Gas and Water Works. It contains as fine brick store houses and dwelling houses as you will find in any Western city and its location and situation for business and can see at a glance on the maps. It has all the advantages of the navigation of the Wisconsin and Fox Rivers. It will be the centre of the Railroads. The La Crosse Railroad is now completed to Portage. In fact, it is now the city on the Milwaukee, which holds out such inducements and its prospects as it does. Call and engage Or at and I would say to all who have money to invest, and who are seeking a home, to go and visit Portage City and examine for your selves. The La Crosse cars run there twice every day. The first sale will take place to sell on June 15th, 16th and 17th, and invite lots and business property. Maps of the said City are now at the City Land Office, and any one who desires any other information as regards the said sale of lots in Portage City, if they will call on me I will give them all the information they want. They first of May I will publish in the Daily Sun. They will be sold on very easy terms.

INSTRUCTION.

SALOM'S
MERCANTILE COLLEGE!
A Perpetual Ticket for $25!

GENTLEMEN desirous of acquiring a thorough Mercantile Education, are assured that the advantages presented at this institution are unsurpassed.

The Principal takes this opportunity to acknowledge the courtesy of several of the most distinguished shipping and Jobbing Houses in the East, who recently allowed him to examine their books, besides explaining many original plans for economizing labor, which, adopted as in some instances after the experience of half a century, may be justly designated the *ne plus ultra* of the art.

These advantages, grafted upon Mr. SALOM'S long practical experience in a variety of Counting Houses, have enabled him to elaborate a novel and valuable series of transactions, introducing all the great heads and ramifications of mercantile routine to be actually developed by the student. A perpetual ticket confers the privilege of instruction in Book-Keeping at all times, as well as tuition in Writing, Mercantile Calculations, Law, Correspondence Forms, &c.

The Surveying and Mathematical department is in progress during the day and evening.

ENGLISH AND MERCANTILE
ACADEMY,
No. 40 Wisconsin Street, Milwaukee, Wisconsin

THE PRINCIPAL RESPECTFULLY informs the Public that the Winter Term of this School commences, Monday, December 8th, 1856.

This Institution, has been in successful operation for seven years. The Academic year comprises 4 terms of 11 weeks each, the first commencing on the 2d Monday of September.

The whole number of Students in attendance at present 63.

PRIMARY DEPARTMENT.
A competent Female has charge of this department, and children are received at any age.

THE LADIES' DEPARTMENT
IS IN A SEPARATE ROOM.
Young Ladies recite in Prof. L.'s classes in English Grammar, Rhetoric, Composition, &c., and are taught a neat and fashionable style of Writing. Instruction, is given in Embroidery, Painting, Music, Latin and German, and scholars are taught to read, write and converse in French daily.

COMMERCIAL DEPARTMENT.
This department is under the immediate charge of Prof. LARGO. Instruction is given in all the branches of a thorough English and Commercial Education, including the higher Mathematics, French, Latin and German Languages, and is designed to prepare youth for college or for business life. Perfect facilities are afforded to young gentlemen for acquiring, in the most expeditious manner, a thorough knowledge of Commercial Science as practically employed in the Counting Rooms and Business pursuits generally.

The Full course embraces the most approved and practical forms for keeping Books by Double Entry, in the various departments of Trade and Commerce, including general Wholesale and Retail, Mercantile Exchange, Commission, Shipping, Individual Partnership and Compound, Company Business with Commercial Correspondence in English, French and German. The Student is taught to copy all manuscripts in a bold and rapid hand, which copy all manuscripts in a bold and rapid hand, which serves as a great auxiliary to him in securing an excellent style of writing—a hand writing in every respect adapted to business pursuits is also warranted to every student who takes a full course with the Diploma.

Through the extensive business acquaintance of the Principal, many of his students obtain profitable situations.

Lady's and Gentlemen's French Class at 4½ P. M.—Latin Class at 7½ A. M.; German Class at 3 P. M. Evening Classes in Book-Keeping, Writing, &c., from 7 to 9.

Students admitted any time, day or evening.

For further information see Circulars.

LESSONS IN
Foreign Languages.

MR. and MRS. L. S. B. DE CRETY, from Paris, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form a class in the French, Italian and Spanish Languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their hours being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation. Mr. De Crety furnishing books of the best French authors. Those too wishing to learn vocal music in either of those languages, will find a competent musical teacher in the establishment.

The hours of instruction will be from 8 to 11 o'clock A. M., and from 2 to 5 P. M., And in the evening from half past 6 to 8, for conversation.

Mr. DE CRETY will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, or also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improvements in their health, acquire strength in their limbs and an agreeable recreation.

Mr. De Crety will also form similar classes for children, from 10 to 12 o'clock, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few practical, as to the effect of these different exercises upon their health.

The continued patronage of the public is respectfully solicited.

To MECHANICS.—Mr. DE CRETY will take charge of French correspondence to all the principal cities of France and will procure all Price Currents that they may want.

HATS, CAPS AND STRAW GOODS,
WHOLESALE AND RETAIL.

WE ARE NOW RECEIVING, expressly for the Spring trade, a very large and well-selected assortment of Spring and Summer HATS and CAPS, of all the latest and neatest styles to be found in the Eastern market.

All kinds of silks, satin, crape, straw, leghorn, Dunstable Bonnets, hats, ribbons, bloomers and riding hats, both American and imported; that the market affords; an excellent assortment of French and American Corsets, parasols, bonnet frames of all kinds, handkerchiefs, travelling bags, &c.

Also a heavy line of Parasols and Umbrellas of all grades and at all prices.

Our connection with Eastern houses affords us facilities for purchasing goods at figures which enable us to sell them at rates which will make it for the interest of every merchant to give us a call before purchasing. A stock better by merchandise to the Wisconsin trade was never brought to this Market, and we pledge ourselves to sell as low as any other house in the West.

We purchased the first premium on hats, caps and furs at the last State Fair.
